

2008 ENVOY

2008 ENVOY

THE EXCEPTIONALLY ACCOMMODATING MID-SIZE SUVs.

At GMC, we specialize in building trucks that meet the highest professional standards. So when our engineers focus their attention on the mid-size SUV category, it's no surprise that the resulting vehicles are anything but ordinary. With their stout ladder frames, muscular Vortec power and genuine GMC truck engineering, the 2008 Envoy and Envoy Denali are capable of handling tough challenges and difficult driving conditions with ease. Yet at the same time, these rugged mid-size SUVs offer interior accommodations of unexpected refinement and, in Envoy Denali's case, real luxury. The result is an outstanding combination of capability and comfort. Exceptional accommodations and professional-grade performance, exclusively from GMC.

ENVOY SLT, shown in Silver Mist Metallic with available equipment.

ENVOY DENALI

THE BEST OF EVERYTHING.

For those looking for luxury in a mid-size SUV, Envoy Denali is in a class of one. Visually, it's a standout, with its Denali-signature grille, 18-inch high-polished aluminum wheels and a host of other upscale styling features such as unique front and rear bumper fascias and colour-keyed side mouldings, running boards and exterior mirrors. The ride is extraordinarily smooth and comfortable thanks to an electronically controlled rear air suspension that provides excellent isolation from surface irregularities. Envoy Denali is also exceptional as a performer, with a standard 300-horsepower Vortec 5.3L V8 with fuel-saving Active Fuel Management™ technology.

ENVOY DENALI, shown in Liquid Silver Metallic.

ENVOY DENALI INTERIOR

PURE, UNABASHED LUXURY.

Inside Envoy Denali, the ride is hushed and the amenities are plentiful. The front bucket seats are heated and equipped with a full range of power adjustments to help you find precisely the right seating position. Once you do, Envoy Denali's advanced electronics allow you to store two preferred driver's seat settings in memory and recall them at the touch of a button. Supple leather seating surfaces, luminous satin nickel accents, standard XM Satellite Radio™* and a host of other distinctive features all contribute to Envoy Denali's atmosphere of exceptional warmth and luxury.

Among Envoy Denali's many desirable features is a DVD navigation system that can provide audible turn-by-turn prompts to guide you to destinations across North America.** It's part of the available Navigation Package, which also includes a power sunroof.

*Includes three trial months beyond which service fees apply. Available in 10 Canadian Provinces and 48 contiguous United States.
**At time of printing, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.

ENVOY DENALI INTERIOR, shown in Light Gray.

ENVOY

ROUGHING IT IS SO OVER-RATED.

Envoy brings a reassuring touch of civilization to even the most remote locations. Its spacious interior seats five in comfort and features a host of conveniences, including a number of well-placed power outlets for air inflators, cellphones and MP3 players. Envoy also has what it takes to get you to the wild places and back, including a smooth, sophisticated Vortec in-line 6-cylinder engine that generates 285 horsepower. Other highlights on the standard feature list are StabiliTrak™, four-wheel disc brakes with ABS and a sophisticated Autotrac™ 4x4 drivetrain, all of which help to make Envoy an outstanding all-season performer, off-road and on.

ENVOY SLT, shown in Steel Gray Metallic with available equipment.

VERSATILITY

LIVE LIFE TO THE FULLEST.

Envoy doesn't simply offer an abundance of interior room. It's also designed for a high level of flexibility, so it's a match for everything you love to do. Should you need to carry cargo and passengers at the same time, the second-row bench seat is a divided 65/35 design in which each portion of the seat can be flipped and folded flat separately. If the situation calls for maximum cargo capacity, you'll find that Envoy can handle a generous 2268 litres (80.1 cubic feet) of gear with the second-row seat folded. And even when you're carrying a full load of passengers, Envoy has room for up to 1237 litres (43.7 cu. ft.) of cargo. Envoy has you covered if your load is too bulky to fit inside. Roof side rails and cross bars have been designed to accept a wide variety of accessory racks and cargo boxes.

Envoy adapts easily and quickly to varying passenger and cargo loads, thanks to its standard flip-and-fold 65/35 divided rear bench seat.

Envoy is the perfect companion for any recreational activity, with its large cargo area, 5 tie-downs and, on Envoy Denali, a cargo security shade.

CONTROLS

DESIGNED FOR CONFIDENT CONTROL

For the Envoy design team, nothing is more important than ensuring your complete control over your vehicle. That's why every Envoy keeps you fully informed via a high-contrast analogue gauge cluster, supplemented on SLT and Denali models by a multi-function Driver Information Centre. It's also the reason behind Envoy's highly adaptable controls, including a standard tilt adjustable steering column and, on SLT and Denali models, power adjustable pedals. Envoy can inspire confidence when you're on unfamiliar ground with an available DVD navigation system that can provide audible prompts to guide you, turn-by-turn, to your destination.*

*At time of printing, detailed map coverage is available for most urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is limited outside these areas.

Envoy's rear-seat DVD entertainment system is a great way to keep the family smiling on long journeys. It's available on SLT and Denali models as part of the Entertainment Package, which also includes a power sunroof and an upgraded audio system with an in-dash 6-disc CD changer.

OnStar® and one year of the Safe & Sound Plan are standard on every 2008 Envoy model. Accessing OnStar's services is as easy as pressing the blue OnStar button located on the interior rear-view mirror.

ENVOY SLT instrument panel, shown with available equipment.

TECHNOLOGY

PROFESSIONAL GRADE FROM BUMPER TO BUMPER.

GMC's advanced truck technology enhances every aspect of the Envoy driving experience. Case in point: the full-length frame side rails, which are shaped by water under extremely high pressure. The benefits of this hydroforming technology include outstanding strength, lighter weight for greater overall efficiency and exceptional precision. Other high-tech features include the StabiliTrak electronic stability control system, Autotrac electronically controlled four-wheel drive and, of course, OnStar, all of which are standard on every Envoy model. They all make Envoy a showcase of GMC's professional grade engineering – and, not coincidentally, an extraordinary vehicle to drive.

SAFETY & SECURITY

COMPREHENSIVE PROTECTION.

Envoy is designed to keep you out of harm's way with a host of features – like a high seating position, well-placed, logical controls and excellent visibility in every direction – that help you avoid collisions whenever possible. Envoy is also engineered to protect you and your loved ones if a crash proves inevitable. Features like front and rear crush zones, a solid steel safety cage, steel side-guard beams, dual frontal air bags and standard side-impact head curtain air bags help dissipate dangerous crash energy and help prevent intrusions into the passenger compartment. As a result, Envoy carries the highest possible U.S. government rating for side-impact safety for both front and rear occupants.* Envoy is even equipped to look after your investment, with an electronic immobilizer theft-deterrent system and a standard content theft alarm.

*Rating is for 2007 Envoy. Five-star rating is for the front and rear seating positions in the side-impact crash test. Ratings are for a model with standard head curtain side-impact air bags. U.S. government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (NCAP) (www.safercar.gov).

**FIVE-STAR
SIDE-IMPACT CRASH
TEST RATING**

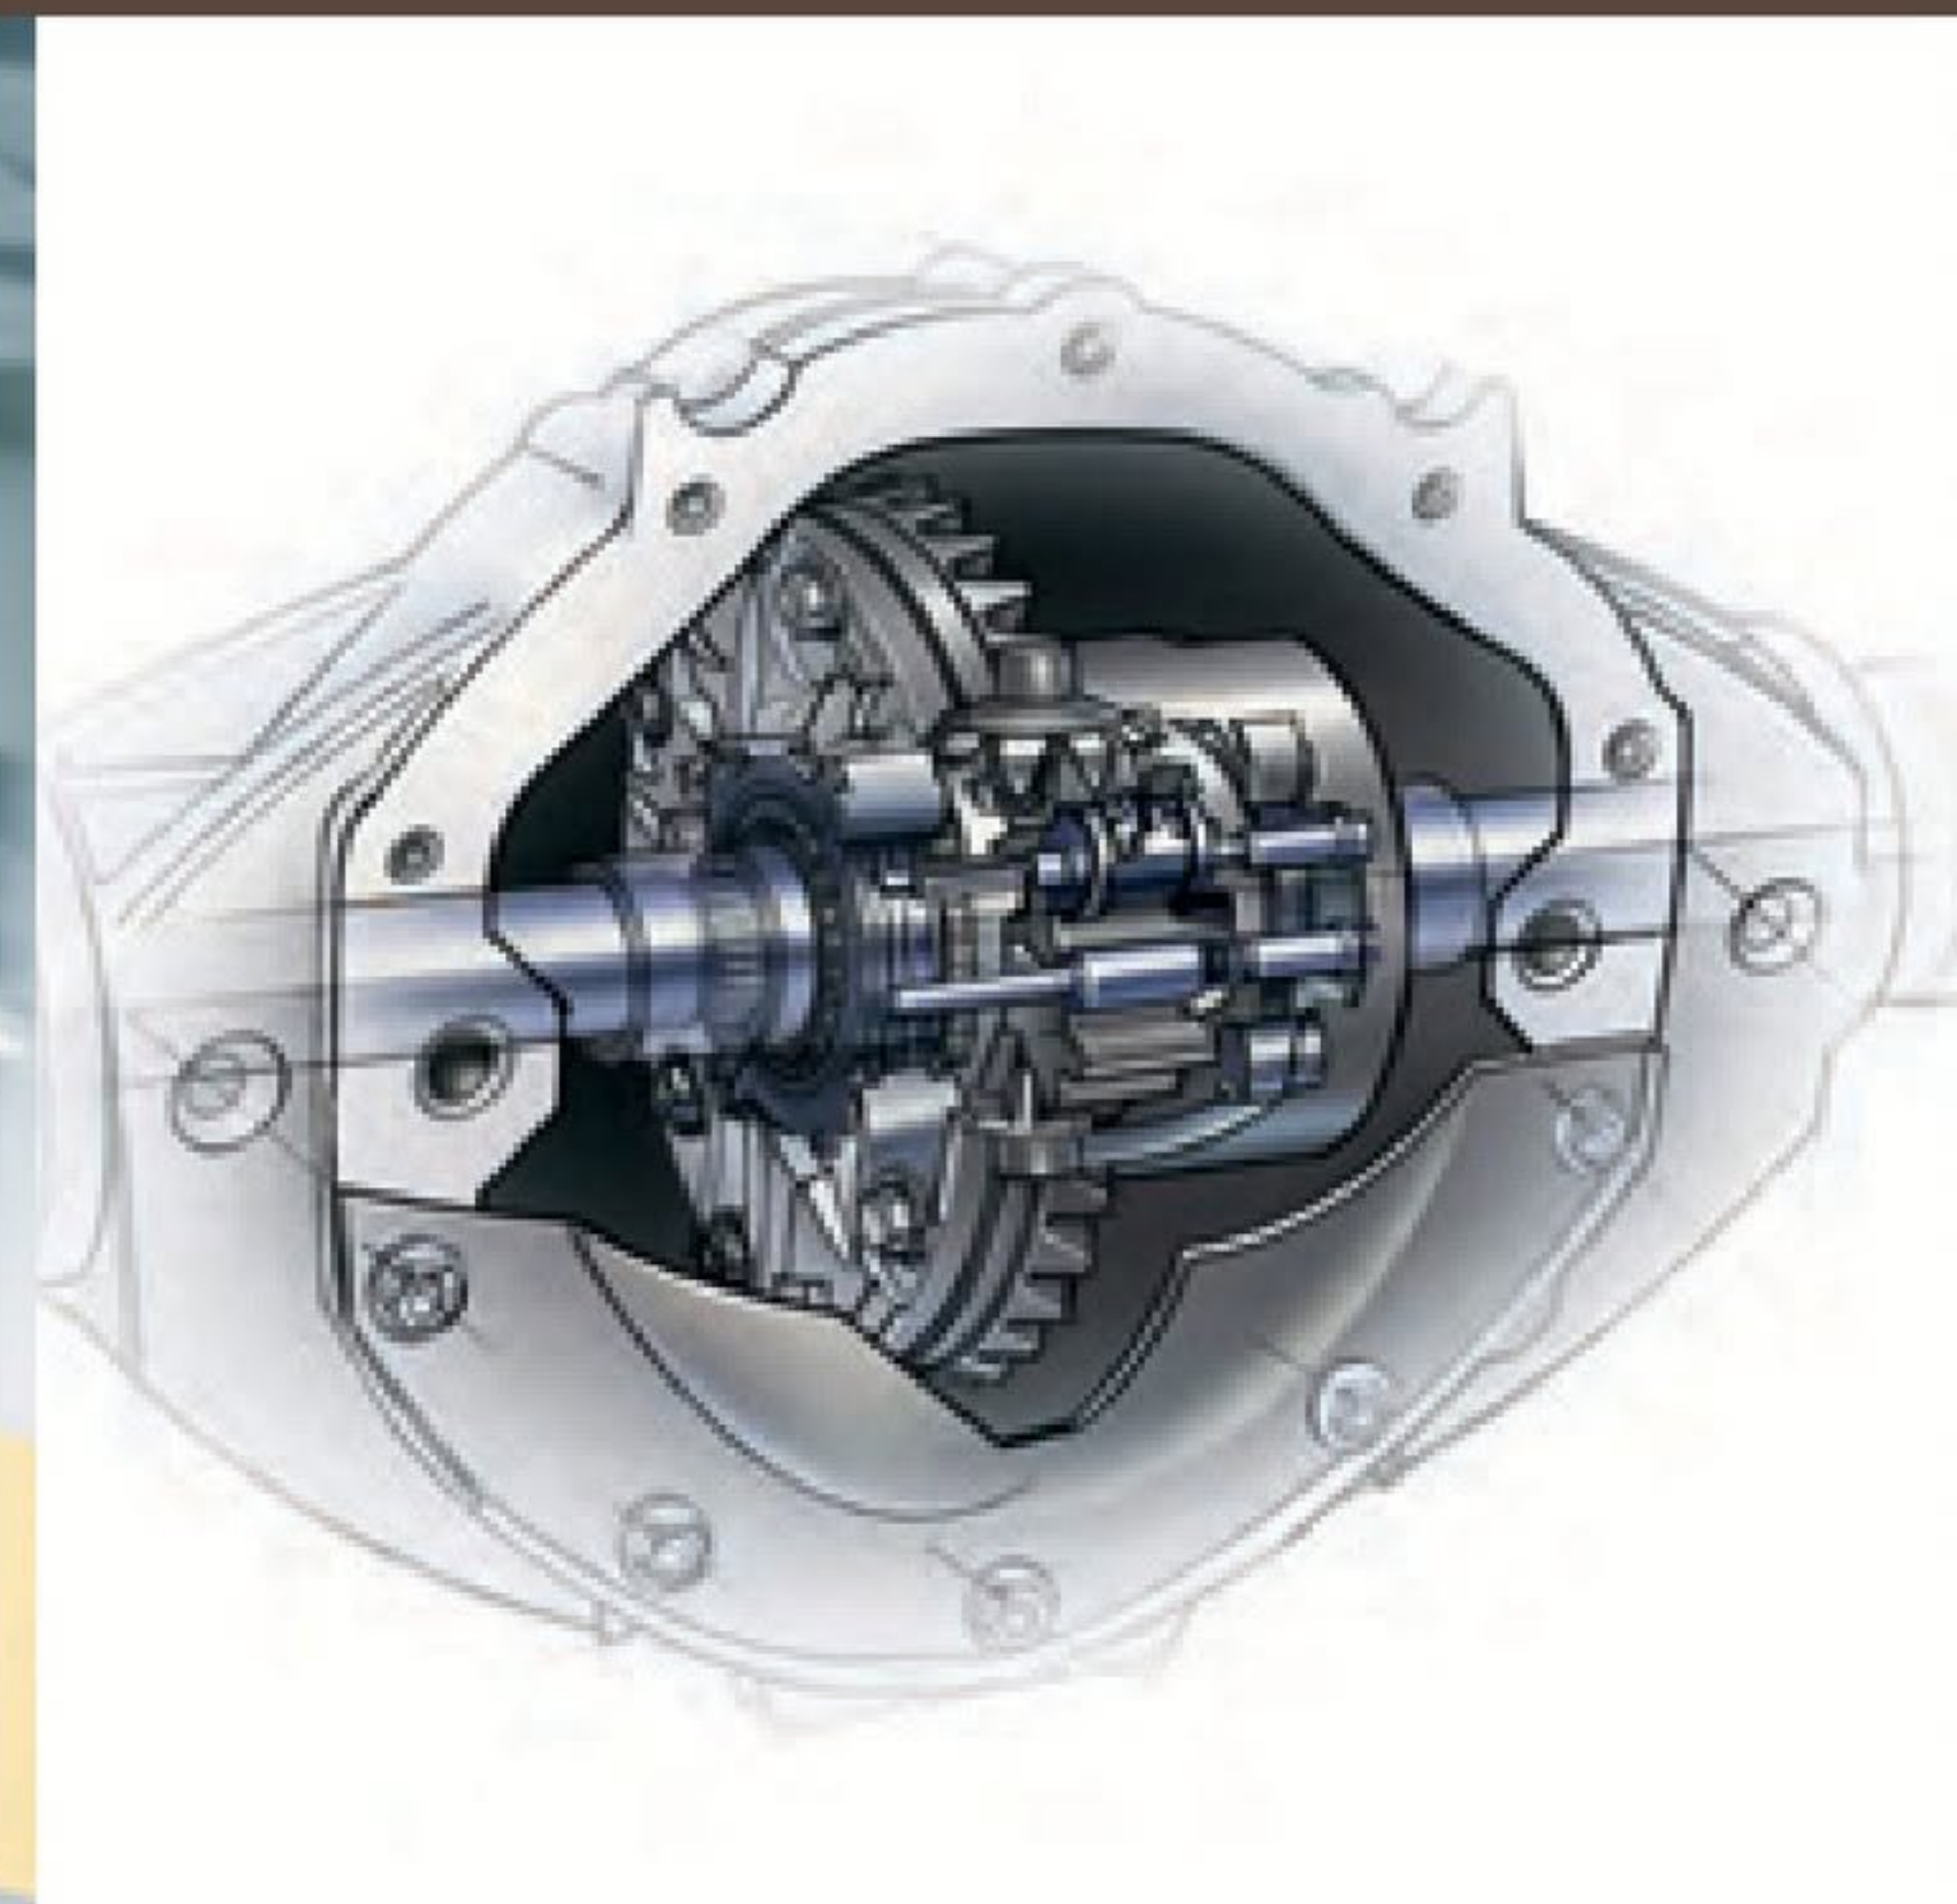

VORTEC POWER

PERFORMANCE, MEET EFFICIENCY.

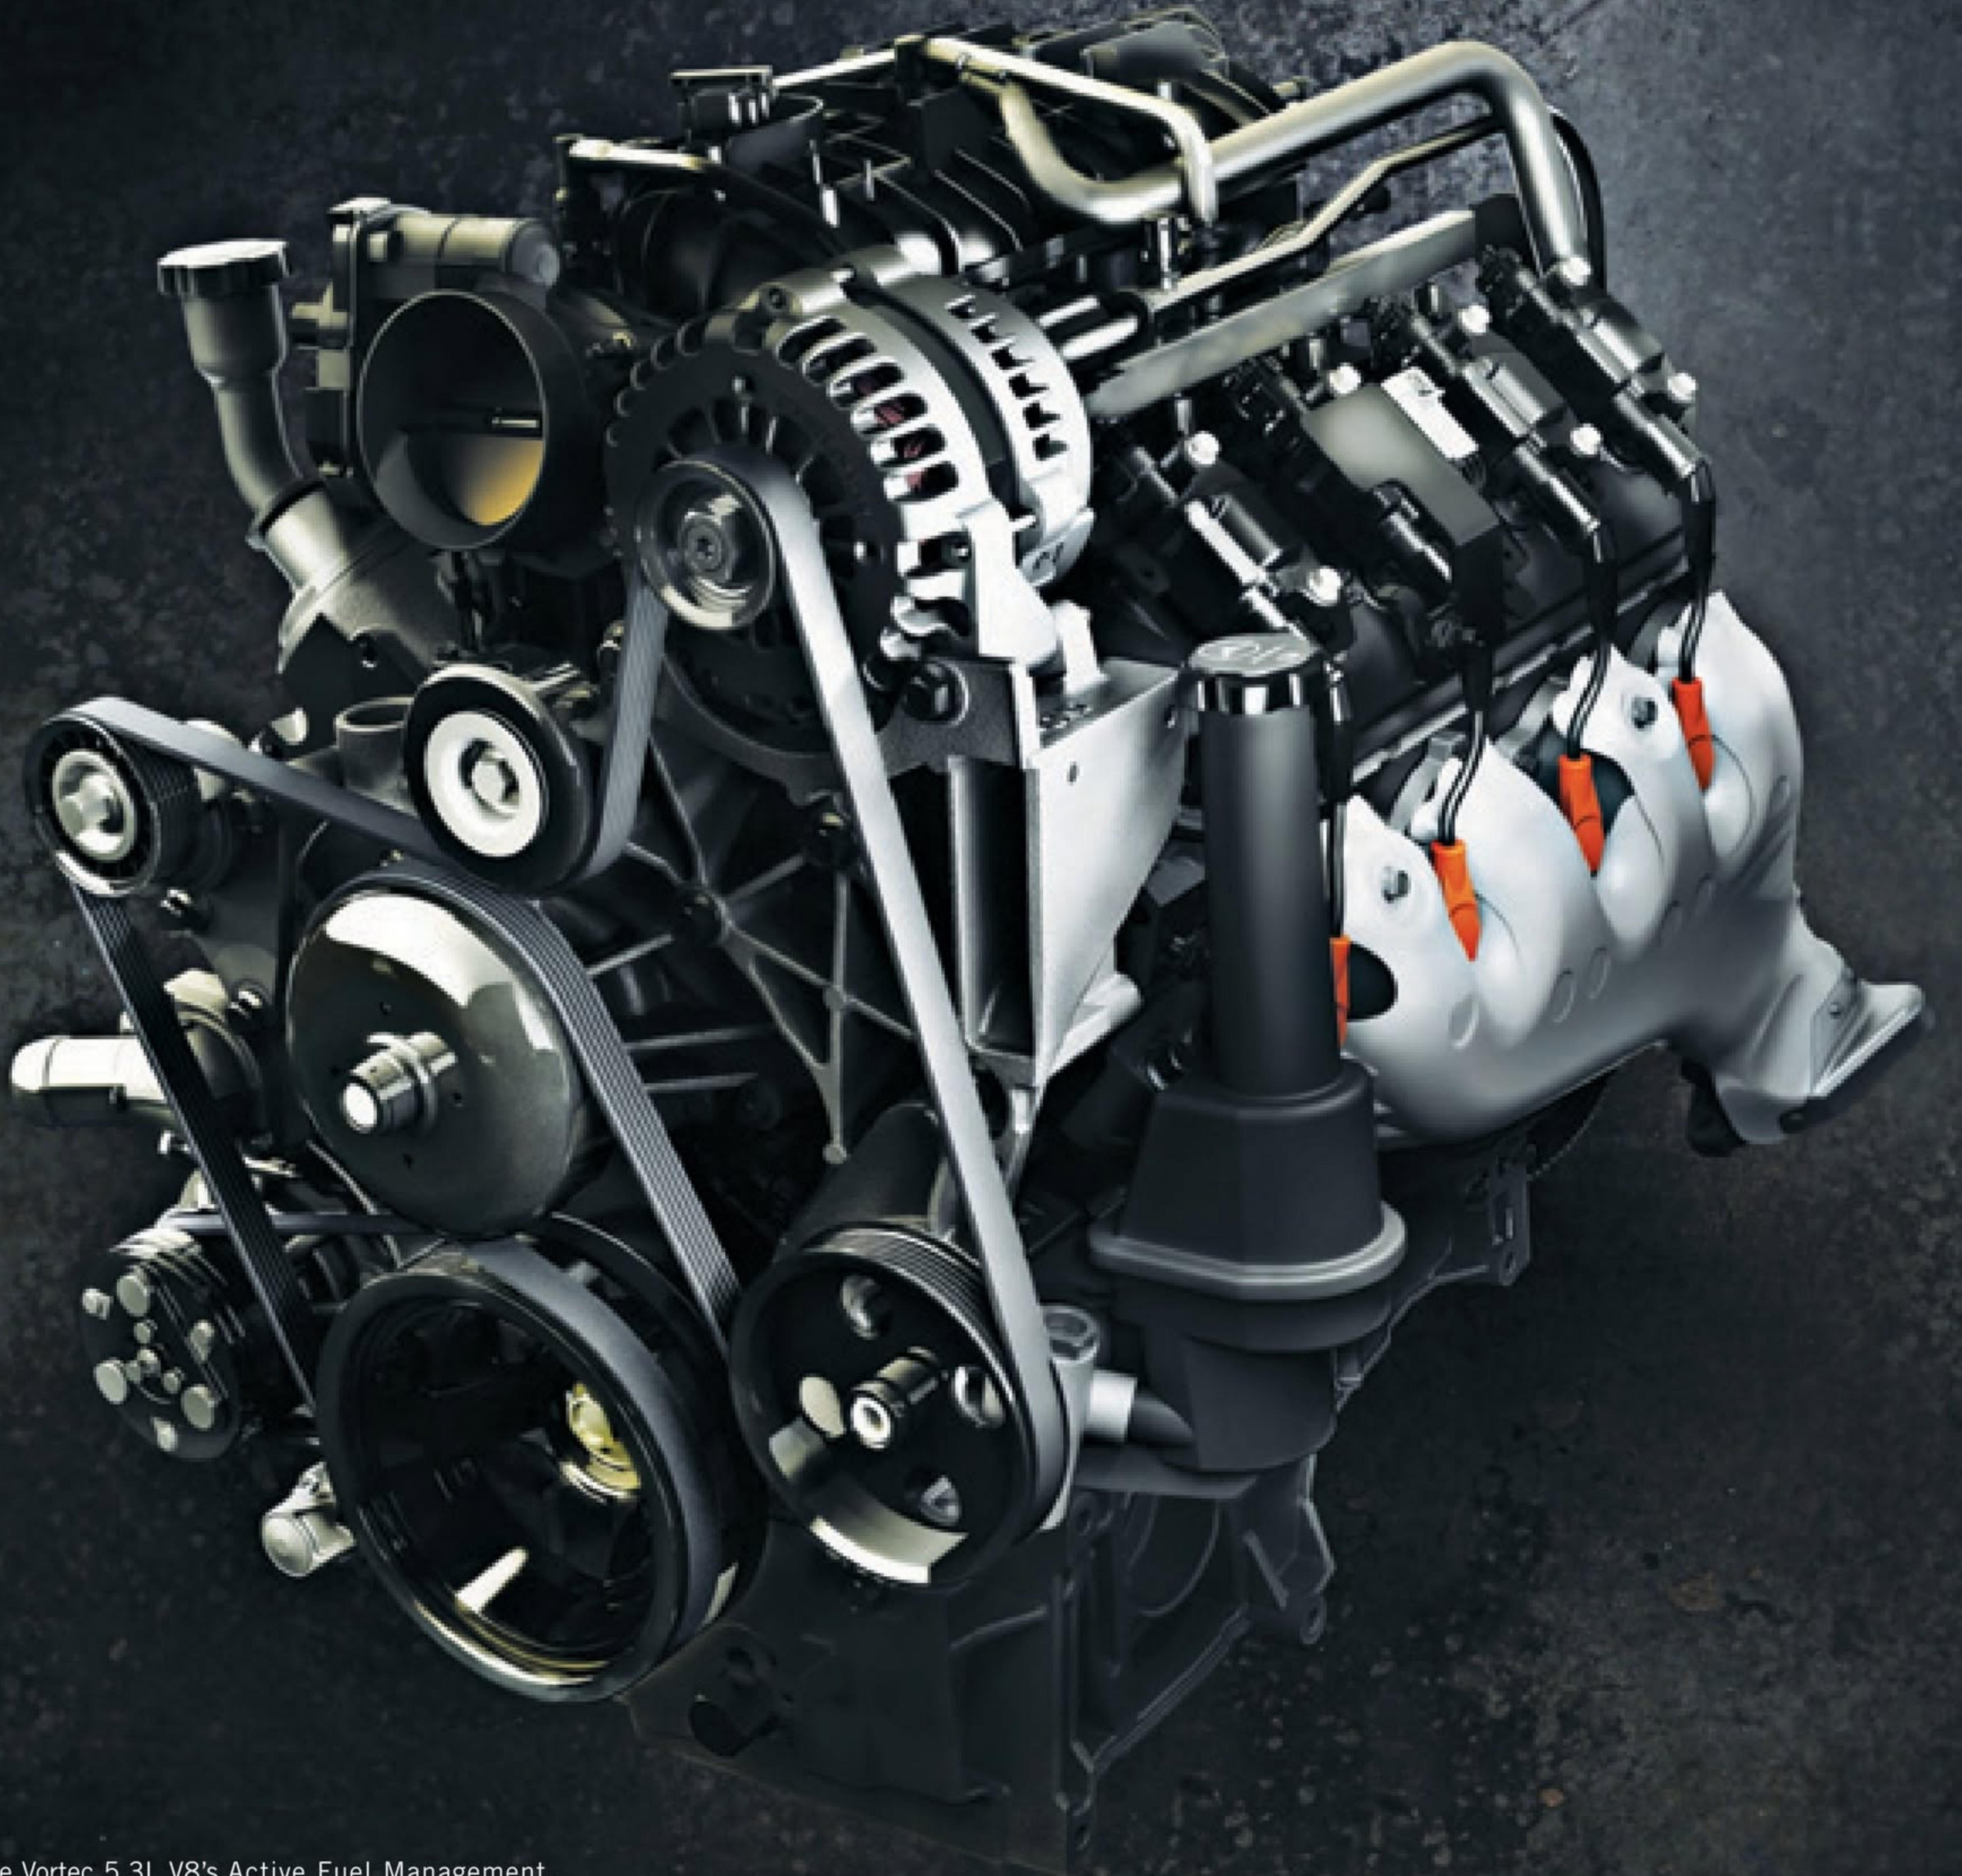

You demand real performance – the kind that lets you handle on-ramps and tow your boat to the lake with equal confidence – but you don't want to get punished at the pump. Envoy gives you everything on your wish list, thanks to advanced technology on both available engines. The standard powerplant in Envoy SLE and SLT is a 285-horsepower Vortec 4.2L in-line six-cylinder engine equipped with Variable Valve Timing (VVT), a high-tech system that optimizes operating efficiency at all engine speeds. Envoy Denali offers more power and significantly more torque, with a standard 300-horsepower Vortec 5.3L V8 equipped with Active Fuel Management (AFM) technology, that deactivates half the engine's cylinders during cruising and in other low power demand situations. The result: improved fuel efficiency with no penalty in performance or driveability.

ENVOY SLT, shown in Liquid Silver Metallic with available equipment.

A locking rear differential is standard equipment on every Envoy model. Should one rear wheel lose its grip and begin to spin, the differential will automatically lock and send power to both wheels, providing optimum traction.

With the Vortec 5.3L V8's Active Fuel Management, cylinder activation/ deactivation happens in milliseconds. It also takes place so smoothly that the only thing you'll notice is your reduced fuel bill.

ACCESSORIES

ADD MORE STYLE, MORE CAPABILITY, MORE LUXURY.

How do you make a great SUV even greater? By upgrading its appearance and function with carefully selected GM Accessories. GM Accessories are the only accessories that are integrated into the process of designing your vehicle, ensuring excellent fit, finish and functionality. Only GM Accessories are backed by GM's 3-year/60,000 km New Vehicle Limited Warranty.* They can also be included in your new-vehicle lease or finance agreement through GMAC. Ask your dealer for a complete list of the GM Accessories available for Envoy. Or visit gm.ca

*Whichever comes first, when permanently installed by the dealer at the time you purchase or lease your new vehicle.

AVAILABLE ENVOY ACCESSORIES INCLUDE:

- Front fascia extension
- Moulded cargo area tray
- Running boards
- Premium all-season floor mats with logo
- Roof-mounted hard cargo carrier
- Moulded splash guards with logo
- Hitch-mounted bike carrier
- Brush grille guard
- Dual headrest DVD player
- Hitch receiver cover.

Accessories

ENVOY STANDARD & OPTIONAL FEATURES

SAFETY AND SECURITY	SLE	SLT	Denali
Air bags – dual-stage, driver and front-passenger, frontal with Passenger Sensing System and automatic air bag suppression	S	S	S
Air bags – front and 2nd-row, side-impact head curtain	S	S	S
Door locks – power, programmable with lock-out protection and last door locking features	S	S	S
Door locks – rear doors, child-security	S	S	S
Headlights – dual composite high-output halogen with automatic light control	S	S	S
Keyless entry system – remote, includes perimeter lighting, Panic Alarm and personalization features with 2 key fobs	S	S	S
OnStar In-Vehicle Communications and Assistance Service – includes one-year Safe & Sound Plan	S	S	S
Safety restraints – LATCH (Lower Anchors and top Tethers for Children)	S	S	S
Theft-deterrent system – content theft alarm, audible/visible	S	S	S
Theft-deterrent system – electronic immobilizer	S	S	S

WHEELS

DIMENSIONS

EXTERIOR, mm (in.)

Wheelbase (A)	2870 (113.0)
Length (B)	4867 (191.6)
Width (C)	1897 (74.7)
Height (D) – excluding roof rack	1826 (71.9)
Front tread (E)	1603 (63.1)
Rear tread (F)	1577 (62.1)
Ground clearance, front (est.)	203 (8.0)

INTERIOR, mm (in.) front/2nd-row

Headroom	1021/1006 (40.2/39.6)
Legroom	1052/940 (41.4/37.0)
Shoulder room	1486/1486 (58.5/58.5)
Hip room	1410/1476 (55.5/58.1)

CAPACITIES

Cargo volume, L (cu. ft.)*	2268 (80.1)
Fuel tank, L (imp. gal.)	83.0 (18.2)
Towing max., kg (lb.)** – 4.2L I-6	2586 (5700)
– 5.3L V8	2948 (6500) [†]
Load floor/length with rear seats in place, mm (in.) – at floor level	1008 (39.7)
Load floor/length with rear seats folded, mm (in.) – at floor level	1778 (70.0)

- * With all rear seats folded.
** When properly equipped with required axle ratio. Trailer towing capacity is the weight of the trailer, its load or contents plus any other weight added to the tow vehicle. Optional equipment, passengers or cargo will reduce trailer towing capacity. All towing recommendations are subject to change. Trailer tongue load should be 10% of the maximum trailer weight but should not exceed the load rating specified for the vehicle, engine or hitch combination. Many trailer towing applications require optional equipment. See your dealer or refer to the Envoy Owner's Manual for details. For more information on trailer towing go to gm.ca.
[†] Envoy Denali.

ONSTAR

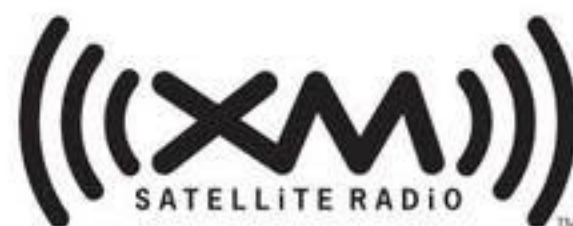

OnStar* uses advanced communications technology to enhance your safety, security and convenience. OnStar Advisors can provide a wealth of information and perform a variety of diagnostic services. They can also provide assistance in an emergency. No wonder more than five million people have become OnStar subscribers and over 15 million calls are made each month on the built-in voice-activated, hands-free system. OnStar and one year of the Safe & Sound Plan are standard on Envoy models. Envoy also features the available Directions & Connections Plan with OnStar's audible Turn-by-Turn Navigation, the first factory-installed, fully integrated GPS navigation system from OnStar. See your dealer for more information on plans and services.

*OnStar services require vehicle electrical system (including battery), wireless service, and GPS satellite signals to be available and operating for features to function properly. Not all OnStar features are available on all vehicles. OnStar acts as a link to existing emergency service providers. OnStar Hands-Free Calling requires a Hands-Free enabled vehicle, prepaid minutes or enrollment in a shared minutes plan and existing OnStar service contract. Subscription Service Agreement required.

XM SATELLITE RADIO

What's convinced more than seven million people to subscribe to XM Satellite Radio? How about the largest playlist on the planet, with musical genres that span everything from decades to dance, rock to rap and country to classical – broadcasting the most commercial-free music in digital quality sound? Or is it the news, talk, comedy and sports channels – including more than 1,000 NHL games – and all available from coast to coast? Now with 120 channels to enjoy, XM has revolutionized radio as we know it. And now you can listen to XM Satellite Radio in your next General Motors vehicle. Ask your dealer for more information.

*Includes three trial months beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous United States.

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

TRADEMARKS

The marks appearing in this brochure including, but not limited to: General Motors, GM, the GM emblem, the GM Canada website address, the GM Accessories logo, GMC, Envoy, Denali and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Active Fuel Management, Autotrac, Solar-Ray, StabiliTrak and Vortec are trademarks of General Motors Corporation and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

Canada 

TAKING ACTION TODAY. FOR TOMORROW.

At General Motors, our commitment to environmentally friendly transportation starts right at the top:

"What we do at General Motors profoundly affects the lives of many people. As the world's largest maker of cars and trucks, we realize our impact extends beyond those who drive our vehicles, who work here and who live in our communities. We also know that our actions today can positively affect the lives of future generations. It's a huge responsibility, but also a great opportunity. And that's why corporate responsibility is an integral part of everything we do at GM."

We're determined to be part of the solution to the environmental issues that we as a global community are facing. To that end, GM is investing billions of dollars in a broad-based advanced technology strategy to help reduce the world's dependency on oil. This includes everything from biofuels like E85 ethanol, to plug-in hybrids, to electrically driven vehicles powered by advanced batteries and hydrogen fuel cells. We've also made steady and significant progress over the past five years to reduce our own energy use, conserve natural resources and decrease greenhouse gas emissions from GM products and facilities."
