

The New '08 Mercury Mariner

MERCURY | NEW DOORS OPENED

MARINER PREMIER IN LIGHT ICE BLUE METALLIC. SHOWN WITH AVAILABLE EQUIPMENT.

SOPHISTICATED STYLE INSIDE & OUT

## Sleek, Sophisticated Style.

### THE NEW '08 MERCURY MARINER.

While its glistening satin accents and shapely silhouette remain, Mariner's presence is greatly enhanced by a chiseled new hood, new headlamps and taillamps, a high side beltline, large wheel arches, a prominent waterfall grille, and a fresh new color palette that includes Kiwi Green, Light Ice Blue and Black Pearl Slate. Functionality is defined by the choice of front-wheel-drive (FWD) or Intelligent 4-wheel-drive (4WD) configurations, in gasoline and Hybrid platforms. Inside, a multi-tone interior is combined with crisp new Ice Blue interior lighting and modern accents of satin-pewter and chrome. In the new 2008 Mercury Mariner, you'll be in style all season long. Especially with the available new 17" 6-spoke satin-finished aluminum wheel,\* one of 3 new wheels for 2008.

\*Late availability - Spring 2007.

SOPHISTICATED STYLE INSIDE & OUT

MARINER PREMIER IN BLACK LEATHER TRIM WITH CONTRAST STITCHING AND STONE ALCANTARA® INSERTS.

## Into the Blue.

### MODERN TRANQUILITY.

The color blue, long associated with the serenity of the ocean, produces calming chemicals in the human body. In blue rooms, individuals are actually more productive. These are just 2 reasons to love the new Ice Blue interior lighting in the 2008 Mercury Mariner. We're sure you'll find more. Illuminating the instrument cluster, center stack, door lock and window switches, and steering wheel controls, Ice Blue interior lighting makes quite an impression – especially at night. Combine it with satin-pewter and chrome accents, and available heated front seats, and you've got an environment that's long on tranquility. Inside the new Mercury Mariner, your Zen awaits.

**SUV SPACE. SPORT-SEDAN SOPHISTICATION.**

Inside the new Mercury Mariner, you really can have it all. 29.2 cu. ft. of cargo space behind the 60/40 split rear seat is enough to handle the fresh produce from the organic market, as well as all the cooking supplies needed to prepare it. Fold down the rear seat, and even more room (66.3 cu. ft.) is at your disposal. Satin-pewter accents on the door-trim panels brighten the interior, as do the door handles and new floor-mounted shifter that are finished in chrome. Mariner models feature monotone seats in cloth or available leather trim, while Mariner Premier two-tone seats are outfitted in premium leather trim with unique Alcantara® inserts.

Passengers in the 2008 Mariner will appreciate an interior that's 15% quieter inside at highway speeds, making it the quietest Mariner ever. Credit goes to a new acoustic-laminate windshield, thick side-window glass, aerodynamically tuned sideview mirrors, new low-profile wipers, and additional sound-absorbing material inside the vehicle. With an interior as stylish as the new Mariner, passengers will be talking.

MARINER PREMIER IN BLACK LEATHER TRIM WITH CONTRAST STITCHING AND STONE ALCANTARA INSERTS.

COOL & EXPRESSIVE ACCENTS

## Power Up.

### THE CHOICE IS YOURS.

The economical Mariner I-4. The spirited 200-hp Mariner V-6. And the efficient Mariner Hybrid. However you like to get up and go, there's a new 2008 Mercury Mariner that's powered just for you.

With a retuned, fully independent suspension that delivers a smoother, more refined ride than before, the new Mariner is perfect for the tight turns and narrow straightaways of the urban jungle. This responsive architecture gives Mariner precise steering and handling, while its unibody construction and low stance contribute to its nimble maneuverability.

Should the need arise to slip away to more wide-open spaces, Mariner V-6 models can tow up to 3500 lbs. when properly equipped with the optional Class II Trailer Tow Package.

MARINER HYBRID IN KIWI GREEN METALLIC. SHOWN WITH AVAILABLE EQUIPMENT.

## Hybrid Technology Meets Mariner Versatility.

### THE NEW '08 MARINER HYBRID.

As the earth's first full-hybrid premium SUV, the original Mercury Mariner Hybrid offered the best of both worlds: outstanding hybrid efficiency and generous SUV capability. Redesigned for 2008, our 2nd-generation model continues its innovative ways. Available for the first time in a front-wheel-drive (FWD) model, Mariner Hybrid delivers better fuel economy and goes farther on a tank of gas than its conventional gas-powered sibling. If snow is your winter companion, an Intelligent 4-wheel-drive (4WD) configuration is available as well. Both models meet California's strict Advanced Technology Partial Zero Emissions Vehicle requirements,\* which helps keep our air cleaner too. To head down the path to a brighter tomorrow, start up the new 2008 Mercury Mariner Hybrid.

\*AT-PZEV is a rating approved by the California Air Resources Board. Vehicles sold in federally regulated states meet the Environmental Protection Agency's Tier 2/Bin (3) emissions standards.

CLEVER CHOICE

#### FULL HYBRID. FULL OF BENEFITS.

**STARTING UP** From modest acceleration to speeds up to about 25 mph, Mariner Hybrid can run on electric power alone in Electric Drive mode. Because more time is spent in this mode in urban environments, city mileage is higher than highway mileage for full-hybrid vehicles like Mariner Hybrid.

**NORMAL DRIVING** As you leave low speeds behind, there's a seamless transition from electric power to gas engine operation. Mariner Hybrid's 2.3L I-4 engine uses Atkinson-cycle combustion to squeeze the most from each drop of gas, producing 124 lb.-ft. of torque and a peppy 155 net hp, when combined with the 70-watt electric motor.

**ACCELERATION** During full acceleration, the electric motor gives the gas engine an extra boost of power and torque in Hybrid Drive mode, giving you power when you need it and providing performance similar to a V-6 engine.

**REGENERATIVE BRAKING** When you apply the 4-wheel disc brakes, the electric motor captures this kinetic energy and uses it to recharge the battery pack. In essence, Mariner Hybrid is recharging itself – so there's never any need to plug it in. This 330-volt nickel-metal-hydride (NiMH) battery pack, located at the cargo area floor, completes the process by supplying energy to start the engine, to drive at low speeds, and to boost acceleration.

**STOPPING** As you come to a complete stop, the gasoline engine can shut off if it is not needed, conserving fuel and reducing emissions. As soon as you start up, the cycle begins again.

#### HYBRID PERFORMANCE.

Hybrid Drive mode is the key to Mariner Hybrid's lively acceleration. Step on the accelerator and the electric motor gives the gas engine, and you, an extra boost of power and torque. An electronically controlled Continuously Variable Transmission (eCVT) keeps shifts smooth.

To track the hybrid powertrain's 3 main modes of operation (Hybrid Drive, Electric Drive and Idle Charging), get Mariner Hybrid's optional Hybrid Energy/Navigation/Audiophile® System. In addition to seeing how long you can keep the vehicle in Electric Drive to get the best mileage, the Navigation System's 6.5" color LCD screen guides you to destinations near and far, while the Audiophile Sound System lets you experience 320 watts of sonic bliss.

A new 110-volt power outlet works like an AC outlet in your home for an even more unique performance. With it, you can be the hit of the next outdoor party: hooking up extra lights or even a small TV.\* And thanks to the standard audio input jack, you can broadcast all of your favorite tunes from your personal music player through Mariner's speakers.

\*See your Owner's Guide for complete details.

#### MINIMIZING OUR IMPACT.

The 2008 Mercury Mariner Hybrid not only drives greener, it's even built greener. The Mariner Hybrid is produced under a carbon offset program, a claim no other hybrid manufacturer can make. By funding U.S.-based renewable clean energy projects (such as wind-powered energy) that reduce emissions elsewhere, Mercury offsets greenhouse gases at its Kansas City plant by the same amount released during the manufacture of each 2008 Mariner Hybrid. Now you can do the same thing! Through Ford's Greener Miles™ partnership with TerraPass, you can neutralize the climate effect of your driving. To learn more, Ford invites you to visit [www.terrapass.com/Ford](http://www.terrapass.com/Ford).

#### 2008 MARINER HYBRID FEATURES

All the versatility, storage capacity, satin-pewter accents and sophisticated style of the new '08 Mercury Mariner are standard on Mariner Hybrid as well. Making this Mariner even more distinctive is Ford Motor Company's own innovative hybrid technology and other unique features.

#### POWERTRAIN/FUNCTIONALITY

• 2.3L I-4 Atkinson-cycle engine with Permanent-Magnet AC-synchronous electric motor • Electronically controlled Continuously Variable Transmission (eCVT) • 330-volt sealed nickel-metal-hydride (NiMH) battery • Regenerative Braking System • Electric Power Steering (EPS) • Front-wheel drive

#### EXTERIOR

• 16" 5-spoke aluminum wheels with brushed-aluminum center cap • Unique badging on side and rear liftgate • Roof-rack side rails

#### INTERIOR

• Premium cloth front bucket seats with cloth inserts, 6-way power driver seat

#### SECURITY/SAFETY

• Personal Safety System® with dual-stage driver and single-stage front-passenger airbags,<sup>1</sup> and Front-Passenger Sensing System

<sup>1</sup>Always wear your safety belt and secure children in the rear seat.

CLEVER CHOICE

## Move Out.

### IN FWD OR 4WD.

To best handle the driving conditions you face every day, Mariner can be equipped in standard FWD or optional 4WD. The choice is yours. If additional traction is needed for snowy climates or uneven road surfaces, Mariner's Intelligent 4WD System is always on and always working. It automatically monitors traction and adjusts torque distribution as needed to give you maximum grip. In a Mariner equipped with the Intelligent 4WD System, you're free to change course as often as you like.

## On the Level.

### ENHANCE YOUR STABILITY.

AdvanceTrac® with RSC® (Roll Stability Control), an electronic stability enhancement system that actually measures what other manufacturers' systems ignore or can only estimate, is standard on all non-hybrid Mercury Mariner models.

Working in conjunction with the Anti-lock Brake System (ABS), traction control and yaw control, a unique vehicle-roll motion sensor directly measures the vehicle's roll-rate over 100 times every second. If understeer, oversteer or a loss of traction is detected, the system will apply individual brakes and modify engine power to help keep all 4 wheels firmly planted.

Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

## Suite Protection.

### THE SAFEST MARINER EVER.

Every 2008 Mercury Mariner features a suite of 6 standard airbags to enhance your protection in the event of an accident. The dual front airbags\* in the Personal Safety System® are joined by front-seat side airbags, and the side-curtain airbags and rollover sensor in the Safety Canopy™ System.

Additional occupant protection improvements in all 2008 models include new front airbags (the driver's airbag is bigger), new front and side crash sensors, a new steering column angle, new door-trim panels with softened armrests, new doors with side-impact foam bolsters and side-intrusion door beams, and new front-seat safety belt retractor pretensioners.

\*Always wear your safety belt and secure children in the rear seat.

Mariner's Electric Power Steering (EPS) system adapts with changing road conditions and vehicle speed, resulting in more confident steering and handling. EPS improves steering feel at low speeds, provides precise steering on the highway, and improves fuel economy by using an electric motor to provide assist to the steering system, applying power only when it is needed. It's one of many details that go into the safest Mariner ever.

**HANDLE WITH CARE.**

Sometimes that applies to your cargo. Maybe it's expensive and you want to keep it out of sight. Or maybe it's dripping wet, and you don't want it on the seats or carpet. Maybe, just maybe, there's too much of it, and it's lying around. Whatever the challenge, Mariner has some innovative space and storage solutions.

For starters, Mariner's redesigned center console with a 3-tier storage system features 2 removable bins. Leave them in place inside the console if you like, or remove and attach them to the front-passenger side or rear of the console (think trash can or extra storage container). A bottom storage level (think secret compartment) goes nearly to the floor of the vehicle, with hidden storage that's large enough for a laptop computer or a purse.

Behind the rear seats, the optional Interior Cargo Management System includes a hidden, lockable storage space under the carpet that's perfect for wet items, helping to keep the carpet dry. If dirt is your issue, the rear carpet is also reversible – with an easy-to-clean rubber surface on the underside. Rest assured, your cargo will be well handled in the new Mariner.

## Tuned In.

### READY TO BROADCAST.

With a standard audio input jack at the base of the center stack (above left), your music library now has wheels. Just connect your personal music player to the input jack, and you can broadcast all of your favorite tunes through Mariner's speakers.

### DIGITAL DIRECTIONS.

You've folded your last map! With Mariner's optional DVD-based Navigation System (shown at left), it's easy to locate the nearest ATM, organic market, spa or restaurant. Neatly integrated into an Audiophile Sound System, maps and menus are clearly displayed on a large, touch-screen 6.5" color LCD monitor.

### FOR YOUR INFORMATION.

To display information at eye level – making it easy to read while driving – engineers completely redesigned Mariner's center stack. A convenient top-of-dash display (above center) provides key information on all Mariner models. On Premier models, outside temperature and direction of travel readings will also be displayed.

### SENSORY SATISFACTION.

Mariner's optional Audiophile® Sound System features 7 strategically placed speakers (8" subwoofer included), 320 watts of power and a 6-disc in-dash CD changer. For better clarity, redesigned door-trim panels allow speakers to sit higher in the front doors.

### CHECK YOUR MESSAGES.

On Mariner Premier models, the standard message center (above right), located between the tachometer and speedometer, displays trip computer readings and other vital information. Check your messages frequently.

### SATELLITE READY.

Music matters. And with over 130 channels, optional SIRIUS Satellite Radio® delivers *commercial-free music*, along with news, sports and personalities. Optional on all Mariner models, SIRIUS Satellite Radio includes a complimentary 6-month subscription when ordered.

\*Not available in Alaska or Hawaii. See your Lincoln Mercury Dealer or contact SIRIUS at 1-888-539-7474 for more information.

Ford Credit

Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Lincoln Mercury Dealer for details or check us out at [www.fordcredit.com](http://www.fordcredit.com).

**Ford Motor Company Insurance Services** Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1.877.367.3847, or visit us at [www.fordvip.com](http://www.fordvip.com) for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company.

**Ford Extended Service Plan** For a purchase or lease, the Ford Extended Service Plan (ESP) gives you "Peace-of-Mind" protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for an ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln Mercury dealerships.

Peace of mind comes from a 3-year/36,000-mile bumper-to-bumper **New Vehicle Limited Warranty** that covers repair, replacement or adjustment of parts at no additional cost, as well as a 5-year/60,000-mile powertrain limited warranty which features no deductible and is fully transferable. Roadside Assistance for 5 years or 60,000 miles provides the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Lincoln Mercury Dealer will provide complete details.
